DURATION:	60 MINUTES

Unit 5 – Overflow contents

Objectives:

- ✓ Understand Overflow in CSS

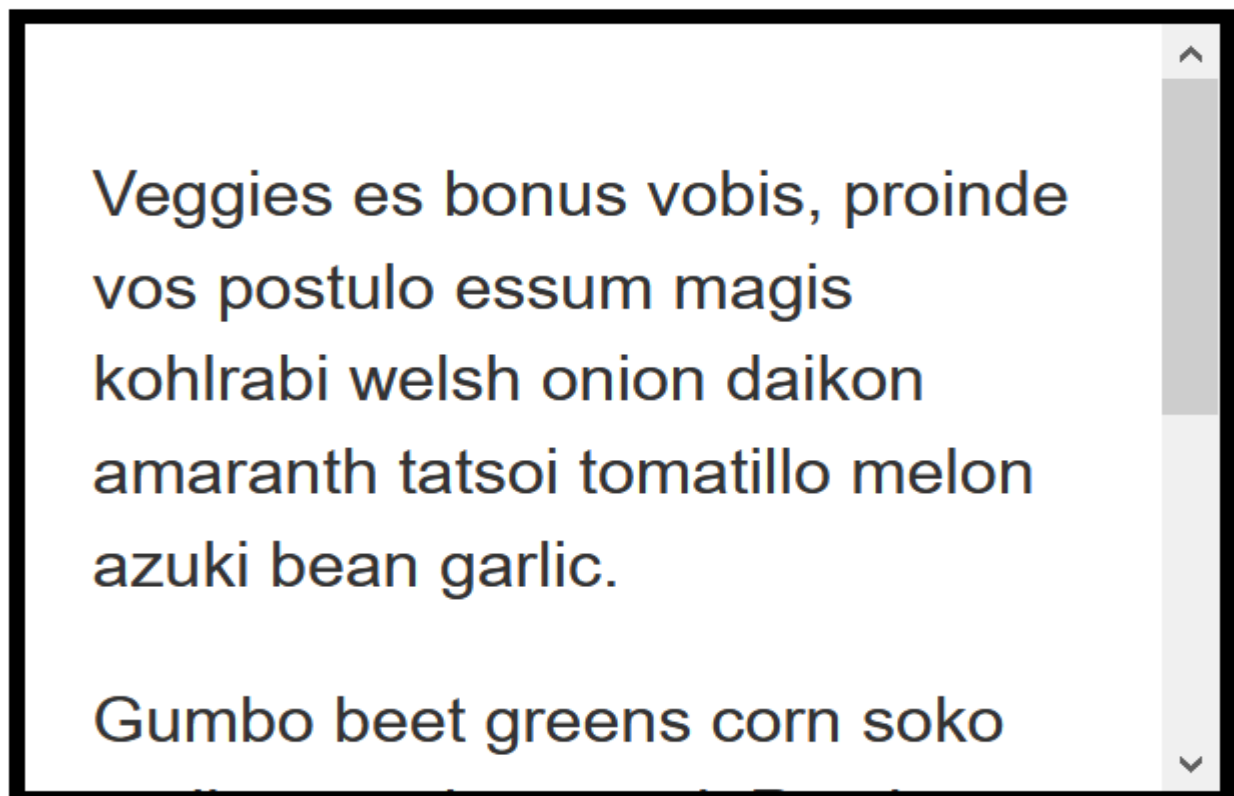

Project Structure

- A project called **CSS-E.M.A501** (this will be your root folder) is provided to you
- Put your work for each problem in corresponding folder inside root folder

Problem 1:

In this problem, the content is overflowing the box because it has a fixed height. Keep the height but cause the box to have scrollbars only if there is enough text to cause an overflow. Test by removing some of the text from the HTML, that if there is only a small amount of text that does not overflow, no scrollbar appears..

Expected output:

Problem 2:

In this task an image is in the box, it is bigger than the dimensions of the box so overflows visibly. Change it to that any image outside of the box is hidden.

Expected output:

-- THE END --
