Project Structure	4
Problem 1:.....	4

CODE:	CSS-E.M.A101
TYPE:	Medium
LOC:	N/A
DURATION:	60 MINUTES

Unit 1 – CSS Overview

Objectives:

- ✓ Understand overview of CSS
- ✓ Able to format simple text using CSS

Project Structure

- A project called **CSS-E.M.A101** (this will be your root folder) is provided to you
- Put your work for each problem in corresponding folder inside root folder

Problem 1:

Use CSS to change how this biography looks by changing the values of the properties.

1. Make the level one heading pink, using the CSS color keyword `hotpink`.
2. Give the heading a 10px dotted `border-bottom` which uses the CSS color keyword `purple`.
3. Make the level 2 heading italic.
4. Give the `ul` used for the contact details a `background-color` of `#eeeeee`, and a 5px solid purple `border`. Use some `padding` to push the content away from the border.
5. Make the links `green` on hover.

Expected output:

Jane Doe

Web Developer

Far far away, behind the word mountains, far from the countries Vokalia and Consonantia, there live the blind texts. Separated they live in Bookmarksgrove right at the coast of the Semantics, a large language ocean.

A small river named Duden flows by their place and supplies it with the necessary regelialia. It is a paradisematic country, in which roasted parts of sentences fly into your mouth.
